

FISCAL NOTE

HB 2944 - SB 3116

February 22, 2002

SUMMARY OF BILL: Specifies criteria for bid specifications, project agreements or other contract or controlling documents of construction contracts or construction management agreements entered into by public entities receiving state funds. Provides that such specifications, agreements, contracts or documents may not require bidders, offerors, contractors or subcontractors to enter into or adhere to agreements with one or more labor organizations, may not discriminate against those who refuse to adhere to agreements with one or more labor organizations, and may not require them to enter into agreements requiring employees to become members of a labor organizations. Specifies that any public entity receiving state funds that violates these provisions must remit back to the state all state funds allocated or appropriated for the project in question. Provides that the provisions apply retroactively to all funds allocated or appropriated to public entities on or after January 1, 2001.

ESTIMATED FISCAL IMPACT:

Other Fiscal Impact - To the extent a public entity does not comply with the provisions of the act there will be a shift in revenues from the offending entity back to the state.

Estimate assumes most of the activities prohibited by the bill are already prohibited by the state's Right to Work laws and any shift in revenues is unlikely.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
